Memorandum

To: All Fellows, Affiliates, Associates, and Correspondents of the Canadian Institute of Actuaries

From: CIA Research Committee

Date: October 14, 2015

Subject: Extension of CIA 86–92 Tables to Issue Age 90

The Income Tax Act Canada (ITA) was recently revised to include updated rules for determining the exempt status of a Canadian life insurance contract (also known as “the exempt test”). The accompanying regulations (Subsection 1401(4)) include the following requirement:

“(B) if the life insured was determined by the insurer that issued the policy to be a standard life at the time the coverage was issued, the *Proposed CIA Mortality Tables, 1986–1992* included in the *May 17, 1995 Canadian Institute of Actuaries Memorandum*, extended to include select mortality rates from age 81 to age 90 developed using the methodology used by the Canadian Institute of Actuaries to derive select mortality rates from age 71 to age 80, applicable for an individual who has the same relevant characteristics as the life insured.”

The methodology used to derive select mortality rates from age 71 to 80 was detailed in the 1995 paper entitled [Graduation of Canadian Individual Insurance Mortality Experience: 1986–1992](#), authored by Harry Panjer and Ken Seng Tan.

The CIA 86–92 mortality table contains select rates for issue ages up to age 80. The attached tables contain the rates generated for ages 81 to 90 using the methodology in the Panjer/Tan paper.

Note that this extension of the 86–92 table is different from the one used in the CIA reports entitled Mortality Under Canadian Standard Ordinary Insurance Issues. The aforementioned CIA reports will continue to use the same extension methodology as they have in the past.

These tables do not represent professional advice, and the user is ultimately responsible for how they are applied or used. The CIA shall not be held responsible for the improper application or use of these tables.

CIA 86–92 – Modified to Add Issue Ages Above 80

| Issue | Mortality Rates During the 15-Year Select Period for Each Issue Age | | | | | | | | | | | | | | |
|---|---|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| Age | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 |
